RONAVIRUS (COVID-19)

How To Protect Yourself And Others – POSTER TEMPLATES

Keep distance

Protect older people
with sufficient distance

Keep your distance
when standing in line

Keep away from events
and meetings

Wash hands thoroughly

Wash your hands for 20
seconds

Soap and water are most
effective

Use hand disinfectant if
soap and water are not
available

Avoid shake hands and contact

Even if it seems rude or
unusual to you

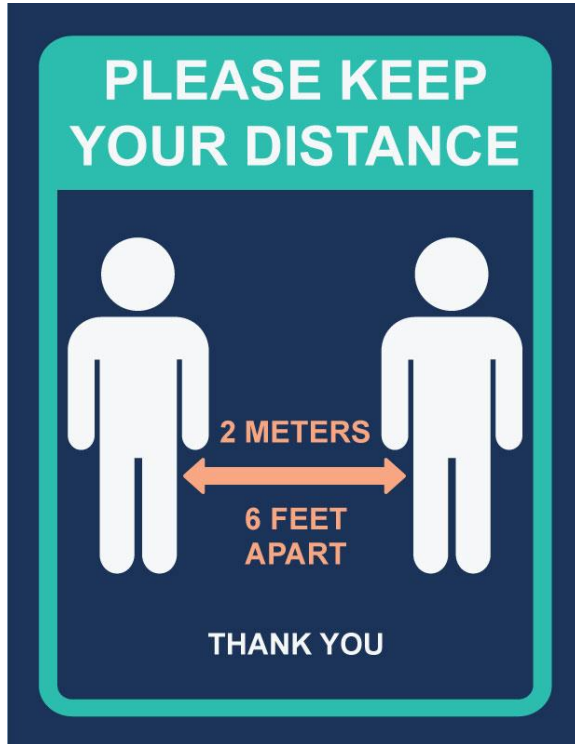

Sneeze into the crook of your arm or into a tissue

Discard paper tissues
immediately after use
AND wash your hands
afterwards

Stay at home with fever and cough

Contact your family
doctor by telephone

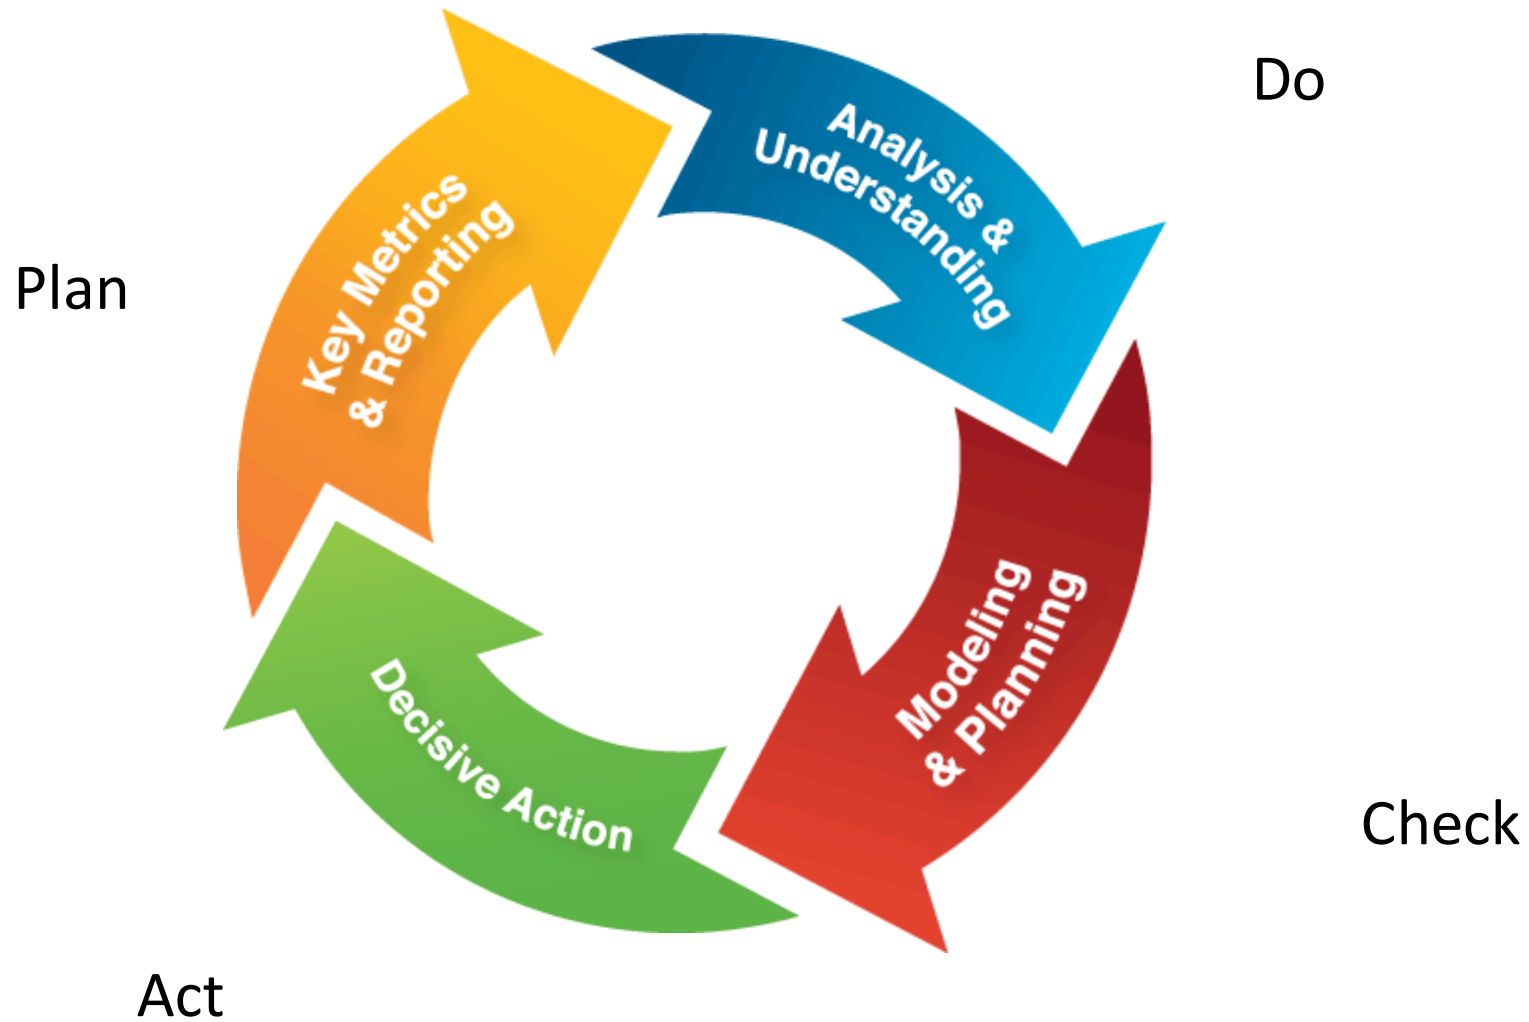

Checklist

- Establish procedures to regularly disinfect inventory and deliveries of goods
- Establish protocols and procedures for receiving, handling and processing shipping and receipts
- Review where shipments originate from to ensure that provincial, national and international borders are still operating and identify the types of shipments that may be stopped, delayed or unauthorized due to COVID-19
- Review all security protocols for stores and other facilities
- Establish new procedures and training for store staff regarding shoplifting incidents
- Provide a list of law enforcement contacts and incident-list which warrants police intervention
- Assuming screening will occur within your store, ensure employee training and proper procedures are in place
- Carefully inspect facilities for any damage or issues caused by vacancy including mechanical, air, and water systems

PDCA

Plan-Do-Check-Act

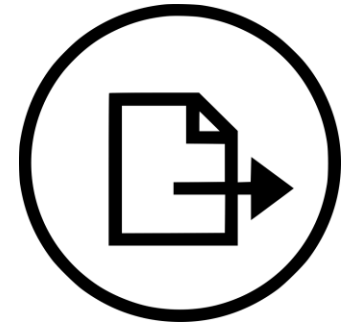

Plan

- Check the RCC regulations and legal bases
- Check the facility in the shop
- Check what is needed for our shop
- Organize the purchase of the items you need
- Organize the replacement of items, such as hand sanitizers for customers and employees, etc
- Organize the placement and assembly of the items
- Assemble the instructions and regulations at the front door
- Create checklists for employees as the process during which Covid 19 measures are
- Create training plans for employees so that the process is more organized and everyone knows how to deal with the situation
- Creation of an additional task plan for the employees what each employee has to control
- Buy the right hand sanitizer, which is also helpful against viruses

Do

- Set appointments for training courses from our employees
- Order all the necessary items
- Instruct the company to attach the plexiglass panes
- Place the hand sanitizers in Front of the shop and in the staff areas
- Distribute the checklists to employees and supervisors
- Cover the floors with the stickers
- Create instructions for the cleaning staff, who must clean more frequently and intensively

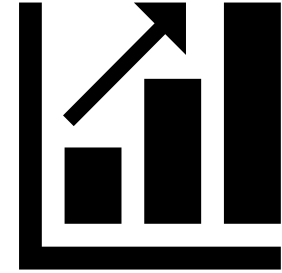

Check

- Check the implementation of the tasks to the employees
- Check compliance with the guidelines and guidelines
- Check the purchase of urgently needed items and the timely delivery of the goods
- Check the regular cleaning of frequently used surfaces and sanitary rooms

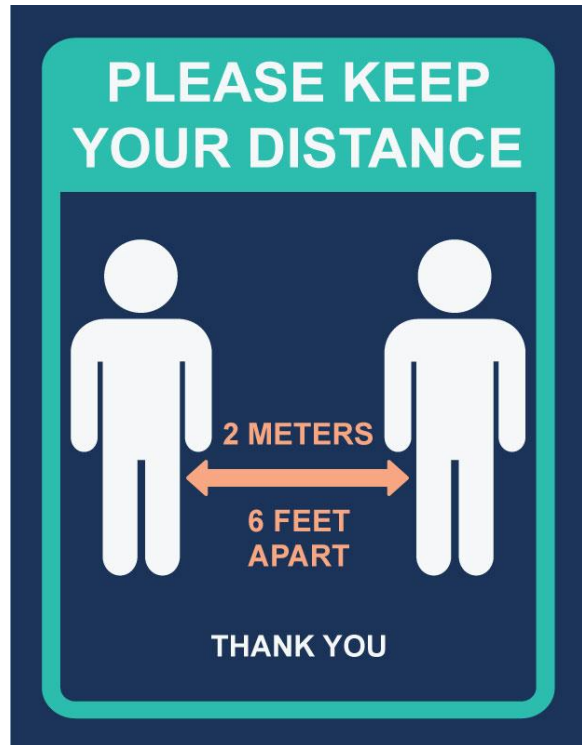

Act

- Complete integration of tasks during the Covid 19 situation
- Improve the overall process to save time and money on new tasks
- Improve points that are not well organized
- Change specifications that are not easy to integrate
- After the first evaluation, add new tasks that have not been taken into account

Summarize

COVID -19 Novel Coronavirus

HOW IT'S SPREAD
Person-to-person by
respiratory droplets.

SYMPTOMS

Cough

Fever

Shortness of breath

PREVENTION

Wash your hands

Use an alcohol-based
hand sanitizer

Cover your cough or
sneeze with a tissue

Avoid touching your
eyes, nose and mouth

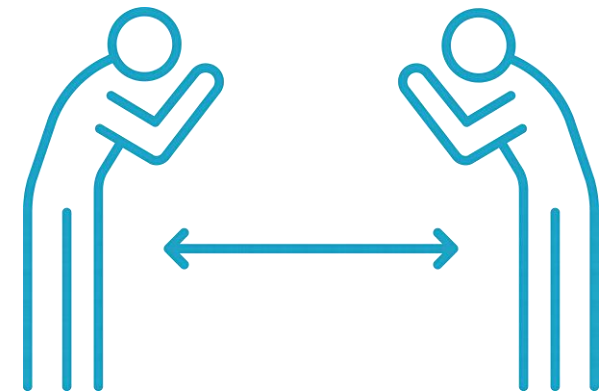

Avoid contact
with sick people

Disinfect frequently
touched objects

Union County Division of Public Health

Conclusion

The Coronavirus disease continues to spread around the world and the path and future is still difficult to predict.

The laws of the individual countries that have been adopted will determine the speed and strength of the recovery in connection with the health system of the individual countries.
